EDUCATION

Dayananda Sagar College of Engineering

Bachelor of Engineering in Computer Science & Business Systems (CGPA: 8.15)

Bengaluru, India

2023 – Present

Sri Chaitanya PU College

Class XII – Physics, Chemistry, Mathematics (Score: 97.00%)

Hyderabad, India

2021 – 2023

Dream World School

Class X – Secondary School Leaving Certificate (Score: 80.00%)

Ballari, India

2020 – 2021

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C, C++, Java, SQL

Frameworks & Web: Next.js 15, React 19, Tailwind CSS, Flask, Node.js, Express, REST APIs

AI, ML & Data: OpenCV, TensorFlow, Scikit-Learn, Pandas, NumPy, NLP, Prompt Engineering

Developer Tools & Cloud: PostgreSQL, SQLite, MySQL, Supabase, Git, GitHub Actions CI/CD, Docker, AWS S3, Power BI

PROJECTS

AI-Powered Code Generator & Debugging System | Python, Flask, Generative AI, LLMs, NLP

Jan '26 – Mar '26

Intelligent Developer Assistant

- Architected a web-based developer tool using Flask that detects subtle logic errors and generates structured code from natural language prompts using LLM integrations.
- Engineered an asynchronous backend processing pipeline for near real-time code optimization recommendations and automated unit test scaffolding.

Pothole Tagging & Road Damage System | Python, OpenCV, Computer Vision, Power BI, Pandas

Oct '25 – Nov '25

Automated Infrastructure Computer Vision System

- Built an automated image-processing video pipeline using OpenCV to detect, categorize, and log road anomalies, automating municipal infrastructure inspections.
- Connected spatial detection telemetry into interactive Power BI dashboards for instant infrastructure risk heatmaps and municipal reporting.

PulseGuard — Uptime & API Health Monitor | Next.js 15, TypeScript, React 19, Tailwind, SQLite, Postgres

Jan '25 – Mar '25

High-Performance Infrastructure Telemetry Suite [\[GitHub\]](#)

- Architected an enterprise-grade uptime monitoring platform featuring automated multi-frequency HTTP health probes, live response latency sparklines (Recharts), and SLA availability reporting.
- Engineered an auto-recovering incident state machine, edge cron runners, and public shareable status pages backed by zero-config SQLite and production PostgreSQL (Supabase) schemas.

POSITIONS OF RESPONSIBILITY & LEADERSHIP

AI Enthusiast & Peer Mentor

Jan '25 – Present

Dayananda Sagar College of Engineering

Bengaluru, India

- Organized and led practical study sessions simplifying machine learning architectures, neural network mathematical intuition, and clean-coding best practices for 40+ engineering peers.
- Guided team discussions around algorithm design and technical problem solving, helping project groups deliver software updates on schedule.

CERTIFICATIONS & ACHIEVEMENTS

NPTEL: Certified in Affective Computing (Machine Emotion Interpretation & HCI)

Infosys Springboard: Comprehensive certifications in C, C++, Python, and Data Structures & Algorithms

Udemy Professional: Corporate Analysis, Systems Workflow, and Business Strategy Frameworks
